

# **DAIHO CORPORATION**

CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED MARCH 31, 2016 AND 2015
TOGETHER WITH INDEPENDENT AUDITORS' REPORT

KPMG AZSA LLC September 2016

#### **Independent Auditor's Report**

To the Board of Directors of DAIHO CORPORATION:

We have audited the accompanying consolidated financial statements of DAIHO CORPORATION and its consolidated subsidiaries, which comprise the consolidated balance sheets as at March 31, 2016 and 2015, and the consolidated statements of operations, statements of comprehensive income, statements of changes in net assets and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of DAIHO CORPORATION and its consolidated subsidiaries as at March 31, 2016 and 2015, and their financial performance and cash flows for the years then ended in accordance with accounting principles generally accepted in Japan.

#### **Convenience Translation**

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2016 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 to the consolidated financial statements.

KPMG AZSA LLC.

## DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2016 and 2015

#### 1. Basis of presenting consolidated financial statements

The accompanying consolidated financial statements of DAIHO CORPORATION (the "Company") and its consolidated subsidiaries (together, the "Companies") have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Law and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accompanying consolidated financial statements have been restructured and translated into English from the consolidated financial statements of the Company prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Japanese Financial Instruments and Exchange Law. Certain supplementary information included in the statutory Japanese language consolidated financial statements, but not required for fair presentation, is not presented in the accompanying consolidated financial statements.

The translation of the Japanese yen amounts into U.S. dollars is included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2016, which is ¥ 112.68 to U.S. \$1. The convenience translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

#### 2. Significant accounting policies

#### (1) Principles of consolidation

The consolidated financial statements as of March 31, 2016 include the accounts of the Company and its 8 significant subsidiaries.

Other 2 subsidiaries are not consolidated as they have no material effect on the accompanying consolidated financial statements. All significant inter-company transactions and accounts have been eliminated.

Investments in the other subsidiaries and affiliated companies are stated at costs since the Company's equity in net income or retained earnings in such companies is not material.

In the elimination of investments in subsidiaries, the assets and liabilities of the subsidiaries, including the portion attributable to minority shareholders, are evaluated by using the fair value at the time the Company acquired control of the respective subsidiaries.

#### (2) Inventories

Costs on uncompleted construction contracts, costs on real estate business and raw materials and supplies are stated at cost as determined on a specific basis. Costs on real estate business and raw materials and supplies are measured at the lower of cost or net realizable value.

#### (3) Property, equipment and depreciation

Property and equipment are stated at cost. Depreciation is computed by the declining-balance method, except for the buildings acquired after March 31, 1998. The buildings (excluding building fixtures) are depreciated using the straight-line method.

Estimated useful lives of the property and equipment are as follows:

|                          | 2016          | 2015          |
|--------------------------|---------------|---------------|
| Buildings and structures | 3 to 50 years | 3 to 50 years |
| Machinery and equipment  | 2 to 20 years | 2 to 20 years |

#### (4) Intangible assets

Intangible assets are amortized using the straight-line method. Software for internal use is amortized over its estimated useful life (five years).

#### (5) Accounting for certain lease transactions

Assets of finance leases that do not transfer ownership of lease property to the lessee is depreciated over the lease term using the straight-line method that residual value is zero.

#### (6) Foreign currency translation

Receivables and payables denominated in foreign currencies are translated into Japanese yen at the year-end rates.

The items of financial statements of foreign subsidiaries and affiliates are translated into Japanese yen at the current rate at the end of the fiscal year for all assets and liabilities, and at the average rate during the fiscal year for revenues and expenses.

#### (7) Revenue recognition

The Companies recognize revenue by applying the percentage-of-completion method for the construction projects with condition that the outcome of the construction activity is deemed certain at the end of the reporting period. To estimate the progress of such construction project, method to calculate the percentage of the cost incurred to the estimated total cost (= cost proportion method) has been applied. Other contract revenue is accounted for using the completed-contract method.

Construction revenues recognized by the percentage-of-completion method amounted to \(\xi\$136,664 million (\xi\$1,212,851 thousand) and \(\xi\$121,889 million for the years ended March 31, 2016 and 2015, respectively.

#### (8) Marketable securities and investment securities

The Companies have neither trading securities nor held-to-maturity debt securities. Equity securities issued by subsidiaries, which are not consolidated or accounted for using the equity method, are stated at moving-average cost. Available-for-sale securities with fair market values are stated at fair market value and unrealized gains and losses on these securities are reported, net of applicable income taxes, as a separate component of net assets via the Consolidated Statements of Comprehensive Income. Realized gains and losses on sale of such securities are computed using moving-average cost. Available-for-sale securities with no fair market value are stated at moving-average cost.

#### (9) Costs of research and development

All research and development costs are charged to income as incurred. Costs of research and development for the years ended March 31, 2016 and 2015 totaled ¥42 million (\$373 thousand) and ¥37 million, respectively.

#### (10) Allowance for doubtful accounts

The Companies provide allowance for doubtful accounts principally at an amount computed based on the historical bad debt ratio during a certain reference period, plus an estimated uncollectible amount based on the analysis of certain individual accounts, including claims in bankruptcy.

#### (11) Allowance for warranties for completed construction

The allowance for warranties for completed construction is provided to cover expenses for defects claimed concerning completed work, based on the estimated amount for compensation to be paid in the future for the work completed during the fiscal year.

#### (12) Allowance for losses on construction contracts

The Companies provide allowance for losses on uncompleted construction contracts at the fiscal year-end when losses are certainly anticipated for the next fiscal year and later and such losses can be reasonably estimated.

#### (13) Allowance for losses on litigation

The Companies provide allowance for losses on litigation at an amount estimated based on the progress of the litigation.

#### (14) Net defined benefit liability

#### (A)Method of attributing expected benefit to periods

For determining method of attributing expected benefit to periods, the Companies use a benefit formula basis.

#### (B)Method of processing actuarial gains and losses and prior service costs

Prior service costs are recognized as expenses using the straight-line method over 10 years, which falls within the average of the estimated remaining service lives of the employees. Actuarial gains and losses are recognized as expenses using the straight-line method over 10 years, which falls within the average of the estimated remaining service lives of the employees, commencing from the succeeding period.

#### (C) Adoption of simplified method for small entities

Certain subsidiaries calculate net defined benefit liability and retirement benefit expenses by using a simplified method in which retirement benefit obligations are equal to the amount that would be paid if all employees resigned voluntarily at the end of the fiscal year.

#### (15) Income taxes

Income taxes comprise corporation, enterprise and inhabitant taxes. The Companies recognize tax effects of temporary differences between the financial statement basis and the tax basis of assets and liabilities. The provision for income taxes is computed based on the pretax income included in the consolidated statements of operations. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences.

#### (16) Derivatives and hedging activities

Foreign exchange forward contracts are utilized by the Companies to manage their exposures to fluctuations in foreign exchange. The Companies do not enter into derivatives for trading purposes or speculative purposes.

The companies state derivative financial instruments at fair value and recognize changes in the fair value as gains or losses unless the derivative instruments are used for hedging purposes.

When a foreign exchange forward contact meets certain conditions, the hedged item is stated by the forward exchange contract rate.

The following summarizes hedging derivative financial instruments used by the Companies and item hedged:

Hedging instruments

Item hedged

Forward foreign exchange contracts

Foreign currency payables

Foreign currency deposits

Scheduled transactions denominated in foreign currencies

The Companies confirm that substantial terms and conditions of the hedging instrument and the hedged transactions are the same, as well as it will have been constantly offset fluctuation of fair value at the beginning of hedge and after that.

#### (17) Amounts per share of common stock

Net income per share is computed using the weighted-average number of shares of common stock outstanding during the year. Cash dividends per share represent dividends declared as applicable to the respective years.

#### (18) Cash and cash equivalents

In preparing the consolidated statements of cash flows, cash on hand, readily available deposits and short-term highly liquid investments with maturities of not exceeding three months at the time of purchase are considered to be cash and cash equivalents.

(19) Appropriations of retained earnings.

Appropriations of retained earnings are reflected in the accompanying consolidated financial statements for the following year upon the shareholders' meeting approval.

#### (20) Reclassifications

Certain prior year amounts have been reclassified and restated to conform to the presentation of this year. These changes had no impact on previously reported results of operations or shareholders' equity.

### (21) Application of new accounting standards

(Changes of accounting policies)

The Companies adopted "Revised Accounting Standard for Business Combinations" (ASBJ Statement No.21, September 13, 2013), "Revised Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No.22, September 13, 2013) and "Revised Accounting Standard for Business Divestitures" (ASBJ Statement No.7, September 13, 2013) from the current fiscal year. As a result, the presentation of net income has been changed and the presentation of "minority interests" has been changed to "non-controlling interests". In accordance with these changes, certain items of consolidated financial statements of previous fiscal year were reclassified to conform to current year presentation.

#### (22) Accounting standards not yet adopted

"Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26 on March 28, 2016)

(A) Overview

"Implementation Guidance on Recoverability of Deferred Tax Assets" was established by the ASBJ when the authority of the Japanese Institute of Certified Public Accountants' accounting and auditing practical guidelines (sections related to accounting treatment) on tax-effect accounting were transferred to the ASBJ. The implementation guidance generally follows the framework related to the recoverability of deferred tax assets, in the JICPA's accounting and auditing practical guidelines, principally those provided in the JICPA Auditing Committee Report No. 66, "Audit Treatment for Judgment of Recoverability of Deferred Tax Assets," in that companies are grouped into 5 categories and the amount of deferred tax asset recorded is estimated based on the applicable category, while the criteria for category designation and treatment of the deferred tax asset amount recorded is reassessed as needed, thereby providing guidelines for the application of the "Accounting Standards for Tax-Effect Accounting" (Business Accounting Council) for the recoverability of deferred tax assets.

(B) Scheduled date of adoption

Opening balance sheet of the fiscal year beginning after April 1,2016.

(C) Impact of the adoption

The impact of adopting the implementation guidance is currently being evaluated.

### 3. Costs on uncompleted construction contracts and other

Costs on uncompleted construction contracts and other are as follows:

|   |   | Millio | ns of yer | 1    | ousands of .S. dollars |
|---|---|--------|-----------|------|------------------------|
|   |   | 2016   |           | 2015 | <br>2016               |
| Costs on uncompleted construction contracts | ¥ | 1,285  | ¥         | 820  | \$<br>11,404           |
| Raw materials and supplies                  |   | 64     |           | 69   | 568                    |

#### 4. Market value information for securities

(A) The following tables summarize acquisition costs and book values of securities with available fair values as of March 31, 2016 and 2015:

#### Available-for-sale securities:

(1) Securities with book values exceeding acquisition costs

(\*1) "Write-down of inventories" is concerning the real estate reclassified from current assets to non-current assets by the change of the purpose.

Net deferred tax assets are included in the consolidated balance sheets as follows:

|   |      |         |   |              | Tho | ousands of |  |
|---|------|---------|---|--------------|-----|------------|--|
|   |      | Million | l | U.S. dollars |     |            |  |
|   | 2016 |         |   | 2015         |     | 2016       |  |
| Current assets -Deferred tax assets                           | ¥    | 760     | ¥ | 556          | \$  | 6,745      |  |
| Investments and other non-current assets -Deferred tax assets |      | 92      |   | 103          |     | 816        |  |
| Long-term liabilities -Deferred tax liabilities               |      | (498)   |   | (602)        |     | (4,420)    |  |

On March 29, 2016, the Bill for Partial Amendment of the Income Tax Act (Law No. 15 of 2016) and the Bill for Partial Amendment of the Local Tax Act (Law No. 13 of 2016) were approved by Japan's National Diet. Based on the amendments, the statutory income tax rates utilized for the measurement of deferred tax assets and liabilities expected to be settled or realized from 32.3% to 30.9% in the fiscal years beginning on April, 2016 and 2017, and 30.6% in the fiscal years beginning on or after April 2018. Due to these changes in statutory income tax rates, net deferred tax assets(after deducting the deferred tax liabilities) decreased by ¥ 11 million(\$98 thousand) as of March 31, 2016, deferred income tax expense recognized for the fiscal year ended March 31, 2016 increased by ¥ 40million(\$355 thousand), and unrealized gains on securities increased by ¥ 28 million(\$248 thousand).

#### 13.Net assets

Under Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one-half of the price of the new shares as additional paid-in capital, which is included in capital surplus.

Under the Law, in cases where a dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in capital and legal earnings reserve must be set aside as additional paid-in capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying consolidated balance sheets.

Under the Japanese Corporate Law ("the Law"), companies are required to set aside an amount equal to at least 10% of the aggregate amount of cash dividends and other cash appropriations as legal earnings reserve until the total of legal earnings reserve and additional paid-in capital equal 25% of common stock.

Under the Japanese Commercial Code ("the Code"), legal earnings reserve and additional paid-in capital could be used to eliminate or reduce a deficit by a resolution of the shareholders' meeting or could be capitalized by a resolution of the Board of Directors. Under the Law, both of these appropriations generally require a resolution of the shareholders' meeting.

Additional paid-in capital and legal earnings reserve may not be distributed as dividends. Under the Code, however, on condition that the total amount of legal earnings reserve and additional paid-in capital remains equal to or exceeded 25% of common stock, they are available for distribution by resolution of the shareholders' meeting. Under the Law, all additional paid-in capital and all legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which are potentially available for dividends.

The maximum amount that the Company can distribute as dividends is calculated based on the non-consolidated financial statements of the Company in accordance with Japanese laws and regulations.

At the annual shareholders' meeting held on June 29, 2016, the shareholders approved cash dividends amounting to \(\frac{\pmathbf{4}}{432}\) million (\(\frac{\pmathbf{5}}{3},\frac{\pmathbf{8}}{34}\) thousand). Such appropriations are not reflected in the consolidated financial statements as of March 31, 2016. They are recognized in the period when they are resolved.

#### 14. Cash and cash equivalents

Reconciliations of cash and time deposits shown in the consolidated balance sheets and cash and cash equivalents shown in the consolidated statements of cash flows as of March 31, 2016 and 2015 are as follows:

|   |                 |        |   |        | Th           | ousands of |  |
|---|-----------------|--------|---|--------|--------------|------------|--|

| Cash and time deposits                        | ¥               | 31,662 | ¥ | 16,307 | \$           | 280,990    |  |
| Less: Time deposits with maturities exceeding |                 |        |   |        |              |            |  |
| three months                                  |                 | (28)   |   | (72)   |              | (248)      |  |
| Cash and cash equivalents                     | ¥               | 31,634 | ¥ | 16,235 | \$           | 280,742    |  |

#### 15. Segment information

(1) General information about reportable segments

The Companies' reportable segments include items in the constituent units of business, for which separately financial information is available, and which reviewed regularly by the Board of Directors to determine the distribution of management resources and evaluate business results.

Therefore, the Companies categorize its operating activities into "Civil engineering", "Building construction" and "Other" businesses as reportable segments.

(2) Methods of measurement for the amounts of sales, income, assets and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Significant Accounting Policies".

Segment income is operating income of consolidated statements of operations.

(3) Information about sales, income, assets and other items is as follows:

- #1.Reconciliations of segment income in an amount of ¥(13) million (\$(116)thousand) and ¥8million for the years ended March 31, 2016 and 2015, are eliminations of intersegment transactions.
- #2.Consolidated amounts of segment income above correspond to the amounts of operating income in the consolidated statements of operations.
- #3.All assets are allocated to the respective business segments without holding all-segment-covering ones.
- (4) Related information
- (a) Information by product or service

As the same information is disclosed in "(1) General information about reportable segments", this information is omitted.

(b) Information by region

(Sales)

Disclosure of sales information by region is omitted, as the proportion of sales in Japan to total sales is over 90%.

(Property and equipment)

Disclosure of property and equipment information by region is omitted, as the proportion of property and equipment in Japan to total property and equipment is over 90%.

- (c) Information about major customers
- Of sales to external customers, sales to any specific customer account for less than 10% of net sales in the consolidated financial statements. Therefore this information is omitted.
- (5) Information about impairment loss of fixed assets by reported segments
  Information about impairment loss of fixed assets by reported segments for the fiscal year ended March 31, 2016 is as follows:

Because of the poor importance, described are omitted.

Information about impairment loss of fixed assets by reported segments for the fiscal year ended March 31, 2015 is as follows:

#### 16. Impairment of Fixed Assets

For the year ended March 31, 2016, the Companies recognized impairment losses on the fixed assets as follows:

Because of the poor importance, described are omitted.

For the year ended March 31, 2015, the Companies recognized impairment losses on the fixed assets as follows:

| Major use   | Asset category | Location                               | Amount       |
|-------------|----------------|--|--------------|
| Idle assets | Land           | Minato City, Tokyo Prefecture          | ¥776 million |
| Idle assets | Land           | Mimasaka City, Okayama Prefecture etc. | ¥0 million   |

Grouping of the Companies' business assets are based on business units (per branch), and idle assets and assets used for rent are based on each asset.

Carrying amounts of certain assets used for rent, idle properties were devalued to their recoverable amounts, due to lowered profitability or substantial declines in the fair market value.

As a result, the Companies recognized an impairment loss of ¥776 million.

Recoverable amounts of certain assets are net selling price at disposition. The Companies use appraisal value or road rating for idle assets.

#### 17. Loss on litigation

Components of losses on litigation for the years ended March 31, 2016 and 2015 are as follows:

|  | Millions | Thousands of U.S. dollars |       |
|--|----------|---------------------------|-------|
|  | 2016     | 2015                      | 2016  |
| Settlement package                           | 13       | 11                        | 115   |
| Allowance for loss on litigation             | 156      | 50                        | 1,384 |
| Provision of allowance for doubtful accounts | 289      |                           | 2,565 |
| Others                                       | 17       | 39                        | 151   |

#### 18. Disclosure of fair values of financial instruments

Informations on financial instruments for the years ended March 31, 2016 and 2015 are as follows. (A) Status of financial instruments

#### (1) Policy for financial instruments

The Companies limit their fund management to short-term deposits and raise funds through borrowings from financial institutions including banks.

The Companies use derivative for the purpose of avoiding risks as described below, and not for speculative transactions.

#### (2) Types of financial instruments, related risk and risk management

Trade notes and accounts receivable are exposed to credit risk in relation to customers. The Companies timely monitor credit standing of their main customers, due dates and outstanding balances of individual customers.

Investment securities are exposed to risk of market price fluctuations. Those securities are composed mainly of the shares of other companies with which the Companies have business relationship. Fair values of those securities are periodically reviewed and reported to the board of directors.

Trade notes and accounts payable have payment due dates mainly within one year.

The derivative is forward exchange contracts for the purpose of the hedging for the exchange rate fluctuations which affect overseas business.

The execution and management of derivative transactions are conducted in accordance with the Company's internal regulations. Furthermore, in actual operations, derivative transactions are entered into only with financial institutions in possession of high credit ratings in order to mitigate counterparties' default risks.

#### (B) Fair values of financial instruments

Book values of the financial instruments included in the consolidated balance sheet and their fair values at March 31, 2016 and 2015 are as follows. The following table does not include financial instruments for which it is extremely difficult to determine the fair value (Please refer to #2 below).

#1. Fair value of financial instruments and matters pertaining to securities

#### Assets:

- (1) Cash and time deposits, Trade notes and accounts receivable and Short-term loans receivable Since these items are settled in a short period of time, their book values approximate fair values.
- (2) Investment securities

The fair values of equity securities are based on quoted market prices. The fair values of bonds are based on either quoted market prices or prices provided by the financial institutions.

- (3) Long-term loans receivable
  - The fair values of long-term loans receivable are stated at the present value using future cash flows discounted by the premium-added rate on the proper index like yield on the government bonds. The fair values of employee loans are computed by discounting probable collection amounts of principals and interest by secure interest rate corresponding to the remaining period.
- (4) Claims provable in bankruptcy, claims provable in rehabilitation and other With respect to claims provable in bankruptcy, claims provable in rehabilitation and other, allowance for bad debts are estimated based on the amount expected to collect. Consequently, the book values of those receivables less the estimated allowance for bad debts are deemed to approximate the fair values.

#### Liabilities:

(1) Trade notes and accounts payable, Bank loans and Deposits received Since these items are settled in a short period of time, their book values approximate fair values.

#### Derivative transactions:

The fair value of derivative transactions is valued from prices quoted by financial institutions.

- #2. Since no quoted market price is available and it is extremely difficult to determine the fair values, nonmarketable securities for ended March 31, 2016 and 2015 (book value: ¥813 million (\$7,215 thousand) and ¥835 million) are not included in the above table.
- #3. The aggregate maturities subsequent to March 31, 2016 and 2015 for financial assets with maturity are as follows:

|                                     |      |             |         | Millions o | f yen   |          |     |        |

|  | 2016            |        | 2015 |        | <br>2016                     |
| Profit attributable to owners of parent                          | ¥               | 5,554  | ¥    | 4,616  | \$<br>49,290                 |
| Amount not belonging to ordinary shareholders                    |                 | ==     |      |        |                              |
| Net income attributable to common stock                          | ¥               | 5,554  | ¥    | 4,616  | \$<br>49,290                 |
| Weighted average number of ordinary shares (thousands of shares) |                 | 82,683 |      | 74,859 |                              |

The dilutive factor included in calculating diluted net income per share is as follows

| _   | 2016 | 2015 |
|---|------|------|
| Subscription rights to shares (thousands of shares) | 795  | 263  |

#### 21.Stock option

Stock option expense that is accounted for under selling, general and administrative expenses on the Consolidated Statements of operations for the fiscal year ended March 31, 2016 and 2015 amounted to ¥217 million (\$1,926 thousand) and 184 million.

#### A. Outline of stock options

|                              | FY 2014 stock options | FY 2015 stock options |
|------------------------------|-----------------------|-----------------------|
| Title and number of grantees | 7 Director            | 7 Director            |
|                              | 8 Corporate officer   | 11 Corporate officer  |
| Number of stock options(a)   | 264,000 common shares | 533,000 common shares |
| Grant date                   | March 2, 2015         | March 1, 2016         |
| Exercise condition           | (b)                   | (b)                   |
| Intended service period      | No particular set     | No particular set     |
| Exercise period              | From March 3, 2015 to | From March 2, 2016 to |
|                              | March 2, 2035         | March 1, 2036         |
|                              |                       |                       |

#### Notes:

- (a) Number of stock options means total shares to be issued upon exercise of subscription rights to shares.
- (b) It is required to fulfill the following working conditions.
- (1) The grantees can exercise their rights from the following day of the day after one year from when lost the position as directors or corporate officer. This period are limited up to 9 years later from then.
- (2) The grantees cannot exercise their rights if one of the following matters happen.
- When the grantees commit a crime which deserves to imprisonment or something worse than that during the period of being as directors or corporate officer.
- When the grantees or legal heirs offer to waive their every rights or part of them by written form given by the Company.
- (3) The legal heirs can exercise the rights during 6 months from the date the grantees pass away regardless of the condition mentioned above (1)
- (excluding those who succeeded again from the legal heirs when they pass away during that period.)

B. Scale and changes in stock options

The following describes the scale and changes in stock options that existed during the fiscal year ended March 31, 2016. The number of stock options is translated into the number of shares.

Fiscal year ended March 31, 2016:

Number of stock options

|                      | FY 2014 stock options | FY 2015 stock options |
|----------------------|-----------------------|-----------------------|
| Before vested:       |                       |                       |
| As of March 31, 2015 | 264,000               | 2                     |
| Granted              | ; <del>=</del> :      | 533,000               |
| Forfeited            |                       | <u>u</u>              |
| Vested               | *                     | -                     |
| Outstanding          | 264,000               | 533,000               |
| After vested:        |                       |                       |
| As of March 31, 2015 | :a:                   | =                     |
| Vested               | -                     | 2                     |
| Exercised            | (m)                   | -                     |
| Forfeited            | 720                   | 팔                     |
| Outstanding          |                       | <u>*</u>              |

#### Price information

|                              | FY 2014 stock options  | FY 2015 stock options  |
|------------------------------|------------------------|------------------------|
| Exercise price               | ¥1 (\$0.009) per share | ¥1 (\$0.009) per share |
| Average price when exercised | <u>=</u>               | <u> </u>               |
| Fair value at the grant date | ¥696 (\$6.18) per      | ¥407 (\$3.61) per      |
|                              | subscription to share  | subscription to share  |

C. Valuation method for estimating per share fair value of stock options

The valuation method used for valuating fair value of subscription rights to shares is as follows:

Valuation method used

Black-Scholes option-pricing model

| Principal parameters and estimation method                 | FY 2015 stock options  |
|--|------------------------|
| Expected volatility of the underlying stock price(a)       | 54.37%                 |
| Expected remaining life of the option(b)                   | 5.5 years              |
| Expected dividends on the stock(c)                         | ¥3 (\$0.027) per share |
| Risk-free interest rate during the expected option term(d) | (0.221)%               |
| Notes:   |                        |

- (a) The volatility is calculated based on the actual stock prices during the five years and six months from September 1, 2010 to February 29, 2016.
- (b) As reasonable estimate is difficult for lack of sufficient data, the Company made assumptions they will be exercised at the mid-point of the exercise period.
- (c) Expected dividends are determined based on the latest actual dividends on common stock for the fiscal year ended March 31, 2015.
- (d) Japanese government bond yield corresponding to the expected remaining life.

D. Estimation of the number of stock options vested Because it is difficult to reasonably estimate the number of options that will expire in the future, the number of options that have been forfeited is reflected.
