

CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED MARCH 31, 2018 AND 2017
TOGETHER WITH INDEPENDENT AUDITORS' REPORT

KPMG AZSA LLC September 2018

Independent Auditor's Report

To the Board of Directors DAIHO CORPORATION:

We have audited the accompanying consolidated financial statements of DAIHO CORPORATION and its consolidated subsidiaries, which comprise the consolidated balance sheets as at March 31, 2018 and 2017, and the consolidated statements of operations, statements of comprehensive income, statements of changes in net assets and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of DAIHO CORPORATION and its consolidated subsidiaries as at March 31, 2018 and 2017, and their financial performance and cash flows for the years then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2018 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 to the consolidated financial statements.

KPMG AZSA LLC.

1. Basis of presenting consolidated financial statements

The accompanying consolidated financial statements of DAIHO CORPORATION (the "Company") and its consolidated subsidiaries (together, the "Companies") have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Law and its related accounting regulations and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements from International Financial Reporting Standards.

The accompanying consolidated financial statements have been restructured and translated into English from the consolidated financial statements of the Company prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Japanese Financial Instruments and Exchange Law. Certain supplementary information included in the statutory Japanese language consolidated financial statements, but not required for fair presentation, is not presented in the accompanying consolidated financial statements.

The translation of the Japanese yen amounts to U.S. dollars is included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2018, which is \(\frac{1}{2}\) 106.24 to U.S. \(\frac{1}{2}\)1. The convenience translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

Amounts less than one million yen have been omitted. As a result, the total amounts in Japanese yen and translated U.S. dollars shown in the consolidated financial statements and notes to the consolidated financial statements do not necessarily agree with the sum of the individual amounts.

2. Significant accounting policies

(1) Principles of consolidation

The consolidated financial statements as of March 31, 2018 include the accounts of the Company and its 8 significant subsidiaries. The other 2 subsidiaries are not consolidated as they have no material effect on the accompanying consolidated financial statements. All significant inter-company transactions and accounts have been eliminated.

Investments in other subsidiaries and affiliated companies are stated at costs since the Company's equity in net income or retained earnings in such companies is not material.

(2) Inventories

Costs on uncompleted construction contracts, costs of real estate business and raw materials and supplies are stated at cost as determined on a specific basis. Costs of real estate business and raw materials and supplies are measured at the lower of cost or net realizable value.

(3) Property, equipment and depreciation

Property and equipment are stated at cost. Depreciation is computed principally based on the declining-balance method. Buildings (excluding fixtures attached to buildings) acquired on or after April 1, 1998 and fixtures attached to buildings and structures acquired on or after April 1, 2016 are depreciated using the straight-line method.

Estimated useful lives of the property and equipment are as follows:

	2018	2017
Buildings and structures	3 to 50 years	3 to 50 years
Machinery and equipment	2 to 20 years	2 to 20 years

(4) Intangible assets

Intangible assets are amortized using the straight-line method. Software for internal use is amortized over its estimated useful life (five years).

(5) Lease assets

Assets of finance leases that do not transfer ownership of lease property to the lessee are depreciated over the lease term using the straight-line method with a residual value of zero.

(6) Foreign currency translation

Receivables and payables denominated in foreign currencies are translated into Japanese yen at the year-end rates.

The items of financial statements of foreign subsidiaries and affiliates are translated into Japanese yen at the current rate at the end of the fiscal year for all assets and liabilities and at the average rate during the fiscal year for revenues and expenses.

(7) Revenue and cost recognition

The Companies recognize revenue by applying the percentage-of-completion method for the construction projects with the condition that the outcome of the construction activity is deemed certain at the end of the reporting period. To estimate the progress of such construction project, method to calculate the percentage of the cost incurred to the estimated total cost (= cost proportion method) has been applied. Other contract revenue is accounted for using the completed-contract method.

(8) Marketable securities and investment securities

The Companies have neither trading securities nor held-to-maturity debt securities. Equity securities issued by subsidiaries, which are not consolidated or accounted for using the equity method, are stated at moving-average cost. Available-for-sale securities with fair market values are stated at fair market value, and unrealized gains and losses on these securities are reported, net of applicable income taxes, as a separate component of net assets on the Consolidated Statements of Comprehensive Income. Realized gains and losses on the sale of such securities are computed using moving-average cost. Available-for-sale securities with no fair market value are stated at moving-average cost.

(9) Costs of research and development

All research and development costs are charged to income as incurred. Costs of research and development for the years ended March 31, 2018 and 2017 totaled ¥58 million (\$545 thousand) and ¥51 million, respectively.

(10) Allowance for doubtful accounts

The Companies provide the allowance for doubtful accounts based principally on the historical bad debt ratio during a certain reference period, plus the estimated uncollectible amount based on the analysis of certain individual accounts, including claims in bankruptcy.

(11) Allowance for warranties for completed construction

The allowance for warranties for completed construction is provided to cover expenses for defects claimed concerning completed work, based on the estimated amount for compensation to be paid in the future for the work completed during the fiscal year.

(12) Allowance for losses on construction contracts

The Companies provide an allowance for losses on uncompleted construction contracts at the fiscal year-end when losses are certainly anticipated for the next fiscal year and after, and such losses can be reasonably estimated.

(13) Allowance for losses on litigation

The Companies provide an allowance for losses on litigation at an amount estimated based on the progress of the litigation.

(14) Net defined benefit liability

(A) Method of attributing expected benefit to periods

For determining the method of attributing expected benefit to periods, the Companies use a benefit formula basis.

(B) Method of processing actuarial gains and losses

Actuarial gains and losses are recognized as expenses using the straight-line method over 10 years, which falls within the average of the estimated remaining service years of the employees, commencing from the succeeding period.

(C) Adoption of simplified method for small entities

Certain subsidiaries calculate net defined benefit liability and retirement benefit expenses by using a simplified method in which retirement benefit obligations are equal to the amount that would be paid if all employees resigned voluntarily at the end of the fiscal year.

(15) Income taxes

Income taxes comprise corporation, enterprise and inhabitants taxes. The Companies recognize the tax effects of temporary differences between the financial statement basis and the tax basis of assets and liabilities. The provision for income taxes is computed based on the pretax income included in the consolidated statements of operations. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences.

(16) Derivatives and hedging activities

Foreign exchange forward contracts are utilized by the Companies to manage their exposures to fluctuations in foreign exchange. The Companies do not enter into derivatives for trading or speculative purposes.

The companies state derivative financial instruments at fair value and recognize changes in the fair value as gains or losses unless the derivative instruments are used for hedging purposes. When a foreign exchange forward contract meets certain conditions, the hedged item is translated at the corresponding the forward exchange contract rate. The following summarizes hedging derivative financial instruments used by the Companies and the items hedged:

Hedging instruments

Forward foreign exchange contracts Foreign currency deposits

Items hedged

Foreign currency payables

Scheduled transactions denominated in foreign currencies

The Companies confirm that substantial terms and conditions of the hedging instruments and the hedged transactions are the same, as the hedge items to ensure the effectiveness for offsetting the fluctuation of fair value from the start of transaction and thereafter.

(17) Amounts per share of common stock

Net income per share is computed using the weighted-average number of shares of common stock outstanding during the year. Cash dividends per share represent dividends declared as applicable to the respective years.

KPING

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

(18) Cash and cash equivalents

In preparing the consolidated statements of cash flows, cash on hand, readily available deposits and short-term highly liquid investments with maturities not exceeding three months at the time of purchase are considered to be cash and cash equivalents.

(19) Appropriations of retained earnings.

Appropriations of retained earnings are reflected in the accompanying consolidated financial statements for the following year upon the shareholders' meeting approval.

(20) Reclassifications

Certain prior year amounts have been reclassified and restated to conform to the presentation of the current year. These changes had no impact on the previously reported results of operations or shareholders' equity.

(21) Changes in accounting policies

There are no applicable items.

(22) Accounting standards of unapplied

(Standards and guidance not yet adopted)

The following standard and guidance have been issued but not yet adopted.

- "Accounting Standard for Revenue Recognition" (ASBJ Statement No.29, March 30, 2018)
- "Implementation Guidance on Accounting Standard for Revenue Recognition" (ASBJ Guidance No.30, March 30, 2018)

(A) Overview

The above standard and guidance provide comprehensive principles for revenue recognition. Under the standard and guidance, revenue is recognized by applying following 5 steps:

- Step1: Identify contract(s) with customers.
- Step2: Identify the performance obligations in the contract.
- Step3: Determine the transaction price.
- Step4: Allocate the transaction price to the performance obligation in the contract.
- Step5; Recognize revenue when (or as) the entity satisfies a performance obligation.

(B) Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

(C) Effects of the application of the standards

The Company and its consolidated domestic subsidiaries are currently in the process of determining the effects of these new standards on the consolidated financial statements.

3. Costs on uncompleted construction contracts and other

Costs on uncompleted construction contracts and other are as follows:

	-	Millio	ns of ye	en	ousands of .S. dollars
		2018		2017	2018
Costs on uncompleted construction contracts	¥	2,292	¥	2,033	\$ 21,573

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

7. Pledged assets

As of March 31, 2018 and 2017, the following assets of the Companies are pledged to guarantee money.

	·	Millions	of yen		Thousa U.S. d	
	201	18	20	17	20	18
Investment securities	¥	10	¥	10	\$	94

8. Allowance for losses on construction contracts

Costs on uncompleted construction contracts for which a construction loss is anticipated and allowance for losses on construction contracts are presented without being offset.

The amount of allowance for losses on construction contracts, matching with the amount of costs on uncompleted construction contracts, is \(\frac{1}{2}\) million (\\$18\) thousand) and \(\frac{1}{2}\) million for the years ended March 31, 2018 and 2017, respectively. The amount of allowance for losses on construction contracts included in cost of sales is \(\frac{1}{2}\)406 million (\\$3,821\) thousand) and \(\frac{1}{2}\)210 million for the years ended March 31, 2018 and 2017, respectively.

9. Net defined benefit liability

- (1) As of March 31, 2018 and 2017, the Company and certain consolidated subsidiary provide two types of severance and retirement benefit plans: defined contribution pension plans and severance lump-sum payment plans based on points. Other consolidated subsidiaries provide unfunded lump-sum payment plans.
- (2) The following table shows movement in retirement benefit obligations for the years ended March 31, 2018 and 2017 (including adoption of a simplified method to compute their retirement benefit obligations as permitted by Japanese GAAP).

		Millions			ousands of S. dollars
		2018	2	2017	2018
Balance at the beginning of the year	¥	6,294	¥	6,260	\$ 59,243
Service cost		539		531	5,073
Interest cost		51		51	480

year	¥	89	¥	110	\$	837

(7) The accumulated remeasurements of defined benefit plans before tax are as follows:

		Million		usands of . dollars		
	2018		2017		2018	
Actuarial gains and losses that are yet to be						
recognized	¥	179	¥	269	\$	1,684
Total balance at the end of respective fiscal year	¥	179	¥	269	\$	1,684

(8) Plan assets

The Companies have no plan assets. Therefore, the reconciliation of plan assets of beginning and ending balances and the component ratio of the main items included in plan assets for the years ended March 31, 2018 and 2017 are not presented.

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

(9) The principal actuarial assumptions as at March 31, 2018 and 2017 (expressed as weighted averages) is the Discount rate of $0.8 \sim 1.0\%$.

(10) Defined contribution pension plan

The amount to be paid by the Company and its consolidated subsidiaries to the defined contribution pension plan was ¥178 million (\$1,675thousand) and ¥172 million for the years ended March 31, 2018 and 2017, respectively.

10. Contingent liabilities

The Companies are contingently liable as a guarantor of indebtedness of customers aggregating ¥525 million (\$4,941 thousand) and ¥864 million at March 31, 2018 and 2017, respectively.

11. Investment securities loaned out under available-for-sale securities loan contracts

	Millio	ons of yen	Thousands of U.S. dollars
	2018	2017	2018
Investment securities loaned	¥ 1,521	¥ 1,422	\$ 14,316

12. Composition of deferred tax assets and liabilities

The Companies are subject to a number of taxes based on income, which, in the aggregate, resulted in a normal rate of 30.9% in Japan for the years ended March 31, 2018 and 2017. The following table summarizes the main differences between the statutory tax rate and the Companies' effective tax rate for the years ended March 31, 2018 and 2017.

	2018	2017
Statutory tax rate	30.9 %	30.9 %
Permanent differences:		
Non-deductible expenses	0.7	0.8
Non-taxable income	(0.6)	(1.6)
Per capita inhabitants taxes	1.1	1.3
Decrease in valuation allowance	(1.7)	(2.6)
Elimination of intercompany dividends	0.6	1.6
Other	(1.7)	(1.6)
Effective tax rate	29.3	28.7

Main components of the Companies' deferred tax assets and liabilities as of March 31, 2018 and 2017 are as follows:

		Million	s of ye	n		usands of S. dollars
Deferred tax assets:		2018		2017		2018

^{(*1) &}quot;Write-down of inventories" is concerning the real estate reclassified from current assets to non-current assets by the change of the purpose.

Net deferred tax assets are included in the consolidated balance sheets as follows:

					Tho	ousands of
		Million	is of yer	1	U.:	S. dollars
		2018		2017		2018
Current assets -Deferred tax assets	¥	672	¥	745	\$	6,325
Investments and other non-current assets -Deferred tax assets		100		91		941
Long-term liabilities -Deferred tax liabilities		(784)		(618)		(7,379)

13. Net assets

Under Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one-half of the price of the new shares as additional paid-in capital, which is included in capital surplus.

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

Under the Law, in cases where a dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in capital and legal earnings reserve must be set aside as additional paid-in capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying consolidated balance sheets.

Under the Japanese Corporate Law ("the Law"), companies are required to set aside an amount equal to at least 10% of the aggregate amount of cash dividends and other cash appropriations as legal earnings reserve until the total of legal earnings reserve and additional paid-in capital equal 25% of common stock.

Under the Japanese Commercial Code ("the Code"), legal earnings reserve and additional paid-in capital could be used to eliminate or reduce a deficit by a resolution of the shareholders' meeting or could be capitalized by a resolution of the Board of Directors. Under the Law, both of these appropriations generally require a resolution of the shareholders' meeting.

Additional paid-in capital and legal earnings reserve may not be distributed as dividends. Under the Code, however, on condition that the total amount of legal earnings reserve and additional paid-in capital remains equal to or exceeds 25% of common stock, these are available for distribution by resolution of the shareholders' meeting. Under the Law, all additional paid-in capital and all legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which are potentially available for dividends. The maximum amount that the Company can distribute as dividends is calculated based on the non-consolidated financial statements of the Company in accordance with Japanese laws and regulations.

At the annual shareholders' meeting held on June 28, 2018, the shareholders approved cash dividends amounting to \(\frac{\pmathbf{4}}{1}\),296 million (\(\frac{\pmathbf{5}}{12}\),198 thousand). The appropriations were not reflected in the consolidated financial statements as of March 31, 2018. Such appropriations are recognized in the period when they are resolved.

14. Cash and cash equivalents

Reconciliations of cash and time deposits shown in the consolidated balance sheets and cash and cash equivalents shown in the consolidated statements of cash flows as of March 31, 2018 and 2017 are as follows:

	Million	s of ye	en		ousands of .S. dollars
	2018		2017		2018
¥	44,252	¥	31,612	\$	416,528
	(20)		(20)		(188)
¥	44,232	¥	31,592	\$	416,340
	¥	2018 ¥ 44,252 (20)	2018 ¥ 44,252 ¥ (20)	¥ 44,252 ¥ 31,612 (20) (20)	Millions of yen U 2018 2017 ¥ 44,252 ¥ 31,612 \$ (20) (20)

15. Segment information

(1) General information about reportable segments

The Companies' reportable segments include items in the constituent units of business, for which separately financial information is available, and which are reviewed regularly by the Board of Directors to determine the distribution of management resources and evaluate business results. Accordingly, the company has three reportable segments; "Civil engineering," "Building construction" and "Other" as reportable segments.

(2) Methods of measurement for the amounts of sales, income, assets and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Significant Accounting Policies."

Segment income is the operating income of the consolidated statements of operations.

(3) Information about sales, income, assets and other items is as follows:

Year ended March 31, 2018			Mill	ions of yen		
Maich 31, 2016	Civil engineering	Building	Other	Total	Reconciliations (#1·#3)	Consolidated (#2)

- #1. Reconciliations of segment income in an amount of $\frac{1}{4}$ (70) million (\$(658) thousand) and $\frac{1}{4}$ (1) million for the years ended March 31, 2018 and 2017 are eliminations of intersegment transactions.
- #2. Consolidated amounts of segment income above correspond to the amounts of operating income in the consolidated statements of operations.
- #3. All assets are allocated to the respective business segments.

(4) Related information

(a) Information by product or service

As the same information is disclosed in "(1) General information about reportable segments," this information is omitted.

(b) Information by region

(Sales)

Disclosure of sales information by region is omitted as the proportion of sales in Japan to total sales is over 90%.

(Property and equipment)

Disclosure of property and equipment information by region is omitted as the proportion of property and equipment in Japan to total property and equipment is over 90%.

(c) Information about major customers

For sales to external customers, sales to any specific customer account for less than 10% of net sales in the consolidated financial statements. Therefore, this information is omitted.

(5) Information about impairment loss on fixed assets by reported segments
Information about impairment loss on fixed assets by reported segments for the fiscal year ended March
31, 2017 and 2018 is as follows:

Because of the low significance, a description is omitted.

(6) Amortization and balance of goodwill by reportable segment Not applicable.

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

(7) Amount of gain on negative goodwill by reportable segment Not applicable.

16. Costs and expenses

An impact of fraudulent transactions which led to a decline in sales by ¥33 million (\$310thousand) and increase in cost of sales by ¥55 million (\$517thousand) are included for the year ended March 31, 2018.

17. Information on Related Parties

Year ended March 31, 2018 Not applicable.

Year ended March 31, 2017 Not applicable.

18. Loss on litigation

Components of the loss on litigation for the years ended March 31, 2018 and 2017 are as follows:

		Millions of yen			usands of 5. dollars
	-	2018		2017	 2018
Settlement packages	¥	33	¥	6	\$ 310
Others		10		18	94

19. Financial instruments

Information on financial instruments for the years ended March 31, 2018 and 2017 is as follows. (A) Status of financial instruments

(1) Policy for financial instruments

The Companies limit their funds management to short-term deposits and raise funds through borrowings from financial institutions including banks.

The Company use derivatives for the purpose of avoiding risks as described below and not for speculative transactions.

(2) Types of financial instruments, related risk and risk management

Trade notes and accounts receivable are exposed to credit risk in relation to customers. The Companies timely monitor the credit standing of their main customers, due dates and outstanding balances of individual customers.

Advances paid is a credit mainly occurred by construction transactions other than trade notes and accounts receivables and the account is exposed to credit risk in relation to customers. Investment securities are exposed to the risk of market price fluctuations. Those securities are composed mainly of the shares of other companies with which the Companies have business relationship. The fair values of those securities are periodically reviewed and reported to the board of directors.

Trade notes and accounts payable have payment due dates mainly within one year.

The purpose of loans payable is mainly for working capital finance.

Derivative used by the company is forward exchange contracts for the purpose of hedging exchange rate fluctuations, which affect overseas transactions. The execution and management of derivative transactions are conducted in accordance with the Company's internal regulations. Furthermore, in actual operations, derivative transactions are entered into only with financial institutions in possession of high credit ratings in order to mitigate the counterparties' default risks.

(B) Fair values of financial instruments

Book values of the financial instruments included in the consolidated balance sheet and their fair values at March 31, 2018 and 2017 are as follows. The following table does not include financial instruments for which the fair value is extremely difficult to determine (Refer to #2 below).

#1. Fair value of financial instruments and matters pertaining to securities

Assets:

Derivative transactions

(1) Cash and time deposits, trade notes and accounts receivable, short-term loans receivable and advances paid

1,430

1,430

Since these items are settled in a short period of time, their book values approximate fair values.

(2) Investment securities

The fair values of equity securities are based on quoted market prices. The fair values of bonds are based on either quoted market prices or prices provided by the financial institutions.

(3) Long-term loans receivable

The fair values of long-term loans receivable are stated at the present value using future cash flows discounted by the premium-added rate on the proper index-like yield on the government bonds. The fair values of employee loans are computed by discounting probable collection amounts of principals and interest by secure interest rate corresponding to the remaining period.

Liabilities:

(1) Trade notes and accounts payable, short-term loans payable, current portion of long-term loans payable and deposits received

Since these items are settled in a short period of time, their book values approximate fair values.

Derivative transactions:

The fair value of derivative transactions is determined by prices quoted by financial institutions.

- #2. Since no quoted market prices are available and it is extremely difficult to determine the fair values, nonmarketable securities for the years ended March 31, 2018 and 2017 (book value: ¥813 million (\$7,652 thousand) and ¥813 million, respectively,) are not included in the above table.
- #3. The aggregate maturities subsequent to March 31, 2018 and 2017 for financial assets with maturity are as follows:

	Millions of yen

Exercise conditions	(b)	(b)	(b)
Intended service period	No particular set	No particular set	No particular set
Exercise period	From March 3, 2015 to March 2, 2035	From March 2, 2016 to March 1, 2036	From March 2, 2017 to March 1, 2037

Notes:

⁽a) The number of stock options means the total shares to be issued upon the exercise of subscription rights to shares.

KPING

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

- (b) It is required to fulfill the following working conditions.
- (1) The grantees can exercise their rights from the following day of the day after one year from when the grantee lost the position as directors or corporate officer. This period is limited to 9 years from the date.
- (2) The grantees cannot exercise their rights if one of the following matters happen.

The grantee commits a crime that deserves to imprisonment or worse than that during the time as a director or corporate officer.

The grantees or legal heirs offer to waive all their rights or a part of their rights in writing using the format provided by the Company.

(3) A grantees legal heirs can exercise the rights during 6 months from the date the grantees passes away regardless of the condition mentioned above (1).

(Excluding those who succeeded again from the legal heirs when they passes away during that period.)

B. Scale and changes in stock options

The following describes the scale and changes in stock options that existed during the fiscal year ended March 31, 2018. The number of stock options is translated into the number of shares.

Fiscal year ended March 31, 2018:

Number of stock options

	FY 2014 stock options	FY 2015 stock options	FY 2016 stock options
Before vested:			
As of March 31, 2017	235,000	486,000	405,000

date	subscription to share	subscription to share	subscription to share

C. Estimation of the number of stock options vested

Because it is difficult to reasonably estimate the number of options that will expire in the future, the number of options that have been forfeited is reflected.

DAIHO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS March 31, 2018 and 2017

23. Subsequent events

(Share consolidation and change to the number of shares constituting one share unit and change in the total number of issuable shares)

The Company's Board of Directors, at its meeting on May 11, 2018, resolved to submit a proposal for share consolidation, and to change the number of shares constituting one share unit and partially change the Articles of incorporation, to the 69th Ordinary General Meeting of Shareholders to be held on June 28, 2018. This proposal was subsequently approved by the shareholders.

(1) Purpose of the share consolidation and the change in the number of shares constituting one share unit Japanese stock exchanges have announced the Action Plan for Consolidating Trading Units with the aim of standardizing the trading units of the common stock of all domestic companies listed on Japanese stock exchanges at 100 shares by October 1, 2018.

As the Company is listed on the Tokyo Stock Exchange, the Company is going to change its share unit from 1,000 shares to 100 shares. In conjunction with that decision, the Company decided to consolidate its common stock.

- (2) Details of the share consolidation
- (a) Type of shares subject to consolidation: Common shares
- (b) Method and ratio of the consolidation

The consolidation to be executed on October 1, 2018, at a ratio of 1 share for every 5 shares owned by shareholders, will be recorded in the latest shareholders registry as of September 30, 2018.

(c) Share reduction resulting from the consolidation

Total number of outstanding shares before consolidation as of March 31, 2018

87,210,143 shares
Share decrease due to the consolidation
69,768,115 shares
Shares outstanding after the consolidation
17,442,028 shares

(d) Treatment of any fraction less than one share

If the share consolidation results in fractional shares of less than one share unit, such shares shall be subject to a bulk sale in accordance with Article 235 of the Companies Act. The proceeds shall be distributed to the target shareholders in proportion to their respective holdings.

(3) Details of the change in number of shares constituting one share unit

As of October 1, 2018, the number of the Company's shares that constitute one trading unit is scheduled to be changed from 1,000 to 100.

(4) Contents of change in total number of issuable shares

The number of authorized shares will be decreased from 160 million shares to 32 million shares according to the ratio of the consolidation, the effective date for the consolidation of shares on October 1, 2018 according to the ratio of the consolidation.

Pursuant to Article 182, Paragraph 2 of the Companies Act, the Articles of incorporation, prescribed total number of authorized shares, shall be deemed to be changed from the same date.

(5) Schedules of the share consolidation and the change in number of shares constituting one share unit The date of resolution by the Company's Board of Directors: May 11, 2018

The date of resolution by the Ordinary General Meeting of Shareholders: June 28, 2018

The date of the share consolidation and the change in number of shares constituting one share unit: October 1, 2018
